
Title: A TREATISE

Author: Norlick the Elder

A TREATISE ON THE LORE OF GARGOYLES

Though gargoyles are considered by most to be mere legend, no records exist documenting the origins of the gargoyle "statues" that adorn many castles. Even the towering stone guardians of the Codex of Ultimate Wisdom have many of the physical characteristics of the "legendary" gargoyle. Nobody seems to know where they came from either. Despite the lack of hard evidence, there have been a fair number of unconfirmed reports of sightings of live gargoyles. It is the opinion of this author that daemons are a form of gargoyle. As many reliable encounters with daemons have been documented in various scholarly works, perhaps this is the best source of further information on the subject of gargoyles.
